### About me

I am junior QA Engineer with a passion for improving the quality of the products and user experience.

Open to new projects and new experiences, fast learner, hardworking.

Range of Tools and Technologies I have worked with:

=====

- Experienced in testing Web, desktop (Windows)
- Android apps testing (Android studio, Android Emulator)
- Charles Web Debugging Proxy
- API testing using Postman
- Continuous Integration and Version Control Systems: GIT/Github

Understanding of code:

=====

- Python
- Javascript
- Web Development Fundamentals
- SQL

Experience in testing:

=====

- Web apps and software testing
- Functional testing
- Using different approaches for testing the product
- Good knowledge of test artifacts (Bug reports, Test cases)

Looking for opportunities to contribute to product improvement and to challenge and further develop my qa skills.

Please do not hesitate to contact me.
